Sensory guide for the show

The two actresses in the show are identical twins, here is their photo and their names.

Josette

Françoise

They are called The kif-kif sisters.

Summary

Josette and Françoise work at the Department of Returns. They inspect objects that buyers have returned to the store.

Among these everyday objects, many have funny or strange shapes. Françoise and Josette inspect the objects to check their quality.

Some objects are accepted, and others are rejected.

At the end of the inspection, Françoise hides in the boxes and moves like a robot.

This robot represents the rejected objects rebelling. They rebel because they find it unfair to be rejected.
