

Technical requirements

The Kif-Kif Sisters

Billy-croquette

If one of these requirements could not be completed, please contact us. We will be pleased to see if we can adapt the show to your needs.

CONTACT : Josette Lépine, 1-418-997-2815 (in Canada),
info@kif-kif.ca

DURATION : 40 minutes

PUBLIC : All audiences. 180 spectators.

LANGUAGE : The show is mostly visual. Can be performed in French, English, Spanish, Italian or Mute.

NUMBER OF ARTIST: 1 (solo show)

PERFORMANCE SPACE

-Ideal dimensions: 12' wide x 10' deep (sometimes rearranged by the artist in a semi-circle with the public around when it is convenient)

-Minimum dimensions: 8' wide x 6' deep x 6' height

-The show is suited for outdoor or indoor performance.

-Ground: Dry and approximately flat.

Grass is ok.

-Ideally, the public will not face the sun on daytime.

-The experience will be much better if the ambient noise is reduced (ambient music, fan, etc.).

TECHNICAL NEEDS:

-The show can be completely autonomous. We provide all the necessary material for the performance. We provide a small battery operated sound system. All equipment is battery operated.

-If a sound system is provided by the event: We use our own wireless headset microphones and iPod.

We need two XLR inputs for our microphones, and a DI Box near the performance area for our iPod (1/4) and a mini console (1/4).

LIGHT

- Outdoor venues : Sufficient light at night.
- Indoor venues : Sufficient light.

SCHEDULE (This schedule may be flexible, please contact us for arrangements.)

- Set-up: 90 minutes (can be shorter on demand)
- Wrap-up: 40 minutes (can be shorter on demand)
- Artist's arrival: 2 hours prior to performance.

DRESSING ROOM

Without being absolutely necessary for this show, we appreciate a space with table, closed to public access, accessible two hours before the show. For ecological reasons, we don't ask for water bottles when we have access to tap water.

TRANSPORTATION

The material fits in a sedan car, with the artist and a driver.

WEATHER

As we use electronics and a musical instrument, the show does not play in light rain. In the event of high winds, heat waves, or the appearance of a violent storm. the show could be cut short.
